“

A journey from pessimism to hope. Yes, I had reservations about joining Alliance University, just like any other aspirant. Like many other students, I was astounded by the caliber of my classmates. I, like a few others, wanted to discover a means to get a leg up on the competition. This thinking prompted me to look into Alliance's potential. The structure and curriculum helped me think of my life as a startup. What does it take to build a successful startup when your mentors are the greatest in the country, your peers are committed, and your friends are the most inspiring. Thanking this magnificent stage is merely a token of appreciation. Perhaps what I am in the future or what I do for it in the future will define its true meaning.
